

(a) Parallel biological lines and measurement positions

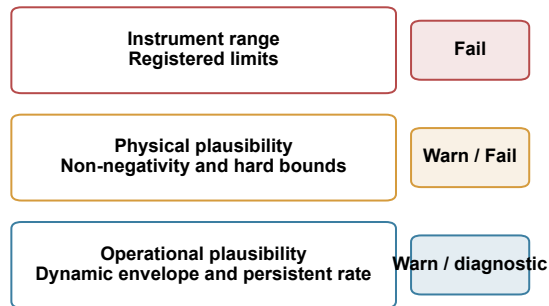

Line 1

Line 2

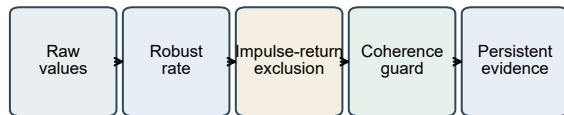

(b)

Three-level physical-plausibility contract

Scored evidence and diagnostic context are exported separately

(c) Persistence and attribution define rate evidence

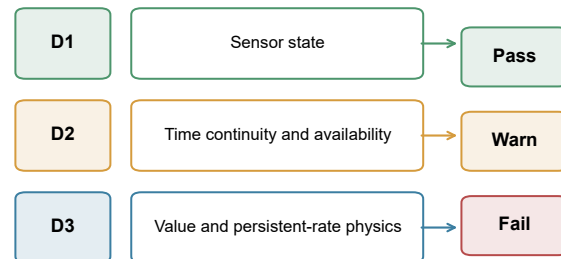

3-9 min soft-only | ≥ 10 min hard-persistent | ≥ 30 min cap

Coherent multi-sensor changes remain process diagnostics, not data vetoes

(d)

Independent evidence ownership and downstream gate

No cross-dimension score is consumed by D3
